

Linear fittings  
for 0.4 kV VLI with SIP-2 and SIP-4

**Anchor suspension kits type EA 1000, EA 1500, EA 2200, EA 1000N,  
EA 2200N**

(for 0.4 kV VLI with SIP-2 and SIP-4)

**Appointment:** Designed for anchoring the insulated load-bearing conductor SIP-2 on end, corner and branch supports. Fixing to the poles is carried out with screws or with an F 20 mounting strap. Anchoring clamps can be supplied in versions with a cast body or with an extruded profile body. The "N" version is equipped with a stainless steel cable.

Manufactured according to TU 3449-005-52819896-2010.

**Those. characteristics:**

<b><u>Name</u></b>	<b><u>Nominal cross-section of the bearing conductor, mm<sup>2</sup></u></b>	<b><u>Breaking load, kN, not less</u></b>	<b><u>Weight, kg, no more</u></b>	<b><u>Number in packaging units..</u></b>
<b>EA 1000 EA 1000N</b>	25-35	10,0	0,36	25
<b>EA 1500, EA 1500N</b>	35-70	15,0	0,56	25
<b>EA 2200 EA 2200N</b>	70-120	20,0	0,56	25
